Grove Hydrogen Automotive showed up in the 16th international OVC Expo.

November 13th, 2019 in Wuhan.

The 16th Optics Valley of China International Optoelectronics Exposition and Forum was held at China Optics Valley Technology Exhibition Centre in Wuhan. Grove prestige hydrogen sports coupe - Granite was shown up at the exhibition.

This exhibition mainly attracts the R&D and manufacturing enterprises in optical intelligent manufacturing, optoelectronic frontier cross application, optical communication and optical sensing fields, it has a high integration with automobile intelligentization and intelligent network.

Mr. Wang Zhijun - Vice Minister of MIIT, Mr. Ma Guoqiang - Deputy Secretary of CPC Provincial Committee & municipal party secretary, Ms. Xiao Juhua - Vice Governor and many other Government leaders visited Grove booth, Liu Chao-COO of Grove introduced company situation and products to them. Many media widely reported Grove and Granite, the audience spoke highly of Grove as well.

Grove is an international company focused on designing, producing and selling hydrogen passenger vehicles, following the trend of the future of automotive industry – to be lighter, more intelligent, networked and sharing. Grove have conducted in-depth communication to promote further cooperation in vehicle intelligentization and network integration with other exhibitors.

The Expo is jointly sponsored by the Ministry of Industry and Information Technology (MIIT), the Ministry of Science and Technology, the State Intellectual Property Office, the Chinese Academy of Sciences, the China Council for the Promotion of International Trade and Hubei Provincial Government, and hosted by Wuhan Municipal Government and Wuhan Donghu New Technology Development Zone Management Committee. It is one of the highest-profile and most influential events in global optoelectronics industry, and it is an important window for the world to understand the latest developments of China optoelectronics industry.

Grove Granite

The Granite, following the naming convention representing the strength of rock but the source of the Earth, is both powerful yet kind to the earth.

Granite brings to the emission free world, a sporty driver-oriented car that is capable of travelling up to 1,000 km on a single refuelling, refillable in only a few minutes.

Designed by the legendary Italian Design house Pininfarina, the Granite is the 3rd car on Grove's large car platform, shared with the Obsidian and Obsidian Sport models. This platform offers exceptional comfort. With a wheelbase over 3 metres long and a Carbon Fibre body and frame it remains athletic and offers a sporty feeling at the same time.

The design of the Interior reflects both the sports orientation, the motorsport style driver focused cockpit allowing the driver to feel at one with the car. Simultaneously the luxurious comfort that is associated with the ability of the Granite to cover long distances. The interior design features Carbon fibre with gold flecks throughout, featuring unique diamond style controller the feeling for all occupants is unmistakably prestigious.

The Exterior of the car reflects this spirit as much outside as it does within, stars light the way and blaze a trail in the lights and unique body lighting systems, boldly highlighting the dynamic sporty lines of the instantly recognisable Pininfarina shape.

Grove is a brand of the Grove Hydrogen Automotive Company Limited, registered in Wuhan, China. Born in 2016 and Registered in 2018 under parent company Institute of Geosciences and Environment (IGE). Operating Design and Development in Wuhan and Barcelona Spain, with Production Facilities in Wuhan and several other locations to be announced, Grove is a Global car company aiming to offer a truly clean Automotive experience from Manufacturing to enjoyment of the car.
